About This Game

Dinosaurs that did not become extinct until now and coexist with mankind.

One day, international terrorist groups use future technologies called genetic mutations to make dinosaurs go crazy and violent, then humans face terrible fears.

Dinosaurs come out of their own area and trample on the major industrial complexes of humanity and attack the city. Our protagonist, our game avatar, uses various weapons to overtake aggressive dinosaurs and moves places to carry out hard fighting.

Realistic graphics and sounds from a paleontological point of view, simple and clear scenarios are enough to take your time.

Now, you have to protect the safety of citizens from terrorist attacks.
